## General Information

---

The East Carolina Teachers Training School was established by Act of the General Assembly, ratified the 8th day of March, 1907. The General Assembly of 1911 re-chartered the school. The following is the charter.

### A BILL TO BE ENTITLED AN ACT TO CHARTER THE EAST CAROLINA TEACHERS TRAINING SCHOOL.

*The General Assembly of North Carolina do enact:*

"Section 1. That the trustees of the East Carolina Teachers Training School, established by an act of the General Assembly of North Carolina of one thousand nine hundred and seven, and located at Greenville, North Carolina, shall be and are hereby constituted a body corporate by and under the name and style of 'The Board of Trustees of the East Carolina Teachers Training School,' and by that name may sue and be sued, make contracts, acquire real and personal property by gift purchase or devise, and exercise such other rights and privileges as are incident to corporations of like character as are necessary for the proper administration of said school.

"Section 2. That said board of trustees shall be composed of nine persons, together with the State Superintendent of Public Instruction, as Chairman *ex officio*, said trustees to be appointed by the State Board of Education: *Provided*, that two members of said board shall be from the First Congressional District, two from the Second, two from the Third, two from the Fourth and one from the Sixth, whose term of office shall be six years. That the State Board of Education, upon the expiration of the term of office of any member of the board of trustees, shall ap-

point his successor for the full term of six years. Vacancies occurring by death or resignation of any member of this board shall be filled by appointment of the State Board of Education for the unexpired term. All trustees shall take oath to perform faithfully their duties, and shall hold office until their successors have been duly appointed and qualified.

"Section 3. That the said school shall be maintained by the State for the purpose of giving to young white men and women such education and training as shall fit and qualify them to teach in the public schools of North Carolina.

"Section 4. That the board of trustees shall have power to prescribe the course of study and shall lay special emphasis on those subjects taught in the public schools of the State and on the art and science of teaching.

"Section 5. That tuition in said school shall be free to those who signify their intention to teach, for such time and upon such conditions as may be prescribed by the board of trustees; and the board of trustees, upon the recommendation of the faculty, shall give those students in said school who have completed the prescribed course of study, a diploma of graduation; and they may upon the recommendation of the faculty grant certificates of proficiency for the completion of special courses.

"Section 6. That when, in the judgment of the board of trustees, the best interest of the school will be promoted thereby the board may decline to admit young men into the rooms of the dormitories.

"Section 7. That all rights and titles heretofore acquired in any way for the use and benefit of said Training School shall vest and remain in the said board of trustees as herein incorporated.

"Section 8. That the trustees shall report biennially to the Governor, before the meeting of each General Assembly, the operation and condition of said school.

"Section 9. That this act shall be in force from and after its ratification.

"Ratified this the 8th day of March, A. D. 1911."

---

### **Location**

The school is located in the town of Greenville, North Carolina, on a tract of forty-seven and one-half acres of land. The site is well-nigh ideal. Part of the land is covered with a growth of native trees and lends itself beautifully to the establishment of a school park.

### **History**

July 2, 1908, ground was first broken. The following buildings have been erected: Boys' Dormitory, Girls' Dormitory, Administration Building, Kitchen and Dining Hall, Laundry and Power Plant, and Infirmary. October 5, 1909, the school opened its doors for students. Since that date 1018 students have been enrolled.

### **Aim**

As is seen in the act of the General Assembly, Section 3, the object of the State in establishing and maintaining the school is "to give to young white men and women such education and training as shall fit and qualify them for teaching in the public schools of North Carolina."

This is a professional school. Its aim is to teach its students not only subject matter, but also the processes by which the learning-mind acquires knowledge. Its purpose is to give the students:

1. Such knowledge of the studies taught in the public schools as a teacher must have in order to teach them properly.

2. A knowledge of other studies that are so related to the branches taught in the public schools as will give a proper understanding of the public school branches.

3. A knowledge of the mental and physical powers of the child and their methods of development.

4. A knowledge of the principles of education and methods of teaching, and their application in the actual work of the school room.

5. A knowledge of the methods of organizing and managing schools.

6. A knowledge of the school law of the State.

In brief, this institution aims to prepare teachers both theoretically and practically for teaching the public schools of North Carolina.

### **Discipline**

In conducting a school for young men and women who are about to assume the responsibilities of so serious and dignified a profession as teaching, there should be no occasion for arbitrary and iron-clad rules. Each student should attend promptly and faithfully to every duty and have due consideration and regard for the rights and privileges of others.

No rules are made by the school authorities except those necessary to govern routine work, but if the pupil is found to be falling off in his studies, neglecting his duties or exerting an unwholesome influence, prompt steps are taken for his amendment. If a pupil does not show some disposition to conform to high standards he can hardly be considered good material for a teacher; and, if he is found unresponsive to patient endeavors to bring him into the proper attitude to his duties, he is requested to resign his place in the school. Every effort is made to lead the students to choose the right, and the results for the past year have been wholly satisfactory.

In the spirit of the institution is found the discipline of the school.

### **Dormitories and Rooms**

The school is equipped with dormitory space for two hundred and eighteen students. Each dormitory room is provided with two single iron beds, with springs, mattresses

and pillows, two chairs, a table, washstand, bureau and wardrobe—all the necessary furniture for comfortable living.

There is a central heating and lighting plant that provides steam heat and electric lights for all the buildings. A modern system of ventilation is installed. The plumbing draining and all those things necessary for good sanitary conditions are of the best type procurable. The school gets its water from the town of Greenville. The town owns its own waterworks and has the water examined frequently, thus insuring its purity. In short, the home life of each student is made as comfortable as can be, and every possible precaution for health is taken.

During the past year the general health of the student body has been entirely satisfactory.

### **Culinary Department**

The school dining room is perhaps the prettiest hall in the institution. The equipment in the kitchen is modern in every sense. For the preservation of meats, vegetable and other food-stuffs, the school has established a refrigerating plant of the best type. A graduate of Stout Institute has charge of the Culinary Department—the object of the school being to provide for its student body the most wholesome food and to see that this food is prepared in the best way possible.

### **Medical Attention**

The school physician pays daily visits to the institution. A resident nurse is in charge of the infirmary. This building is equipped with all the necessary furniture. Heating, lighting, plumbing and ventilation are modern.

### **Administration Building**

In the Administration Building are to be found the school offices, Library, Chemical Laboratory, ten recitation rooms, four music rooms, and the Assembly Hall. Each

room is well equipped and ventilated. The Assembly Hall has a seating capacity of eight hundred. Here the devotional exercises are held daily.

### **Laundry**

The laundry is equipped with all the necessary machinery for efficient laundry work. The equipment here, as in the other buildings is of the best possible type.

### **Athletics**

The students are provided with a basket ball ground and four tennis courts. They are encouraged to take a sufficient amount of outdoor exercise to insure good health. For this purpose, walks have been laid off in the park and each student is requested to spend at least one hour a day in the open air.

### **Student's Outfit**

Each student is expected to bring for his own use the following articles: Two pairs of sheets, one pair blankets, two white counterpanes, two pillow cases, six towels, six table napkins, a spoon and a glass.

Only single beds are used.

All articles to be sent to the Laundry should be plainly marked with indelible ink.

### **Organizations**

The attitude of the school toward organizations is to encourage those that are intended to preserve health, develop character and the spirit of democracy.

### **Athletic Clubs**

During the past year tennis and basket ball clubs were organized among the students, and although no games were played with outside institutions yet much good was derived through the friendly contests that were held on the campus. These sports are encouraged not only for the physical training which is gained through them, but for the contributions

A CORNER OF THE DINING ROOM.

which they make toward character-building. On the athletic field the student gains the power of self-control—a most valuable asset to every person who expects to become a teacher.

### **Literary Societies**

One of the chief factors in the development of both the social and educational life of the student may be found in the Literary Societies. The Jarvis Literary Society established in 1909, for young men; the Edgar Allan Poe and the Lanier Societies, established, 1910, for young women, have done much toward unifying the student body and encouraging school spirit. The chief purposes of these societies are to encourage social intercourse among the students, to put into practice the knowledge gained in the class rooms, through oral and written discussions, and to attain proficiency in parliamentary usage. Every student is expected to join and take an active part in one of these societies.

### **The Young Women's Christian Association**

The religious interests of the school are centered in the Young Women's Christian Association. This association was organized in 1909, since which time it has done very effective work in promoting high ideals among the students. Regular daily and weekly devotional meetings are held, and several different courses in Bible and mission study are given. Every year this association sends delegates to the Southern Student Conferences held in Asheville, North Carolina, where methods are decided upon for the prosecution of the ensuing year's work. All students are urged to take an active part in this phase of the school's work.

### **Loan Fund**

In appreciation of what the Training School had done for them, and realizing the importance of such a donation the members of the first graduating class—the class of 1911—established a Loan Fund of \$112.50. This Fund is to be

loaned to needy and deserving students, who are not able to complete their work without aid.

### **Teachers' Registry**

To help county superintendents and school trustees who desire to secure good teachers and to help those students who complete the course, to secure desirable positions, the school will recommend deserving young men and women for positions.

It is the purpose of the school in this matter to recommend only those students who have the scholarship and personality necessary to meet the demands of the given position.

## **Requirements for Admission**

---

In order to carry out the aim of this school, the following courses of instruction have been arranged and are offered for 1911-1912:

- (a) A Professional or Normal Course.
- (b) An Academic Course.
- (c) One Year Course for Teachers of Rural Schools.

### **Professional Course**

The Professional Course requires the maturity and scholarship equivalent to that attained by the best graduates of a four years State high School, and the course suggested below demands these requirements. This course is open only to those students who have had work equivalent to that offered by a four year's State high school, in all subjects except foreign languages.

To enter the Professional course a student must hold a certificate from a State high school in North Carolina, offering a four year's course, or from a private or graded school giving equivalent preparation, or pass an examination on a course equivalent to that pursued in such schools, or have completed the Academic course offered in this school.

### **The Academic Course**

There are many students in North Carolina who do not have access to a good high school, but who desire to become teachers. To meet the needs of such students, this school has provided a two year Academic Course. To enter this course, a student must hold a certificate showing that he has successfully completed the work of the first year of a State high school or the equivalent or pass an examination upon a course equivalent to that.

To be admitted to either of the above courses a student must be sixteen years of age.

### One Year Course for Teachers of Rural Schools

Realizing that many teachers desire to make a more thorough study of the subjects of the public school branches of North Carolina, the school offers a one year's course open to those who hold a *first or second grade certificate*. To this course only a limited number of students will be admitted, and *only those who hold a first or second grade certificate from a county superintendent*.

## Department of Instruction

---

### English

The work of the English Department is intended to give the student a thorough grounding in the fundamental principles of our language, and to acquaint him with the principles of English Grammar and Rhetoric—to develop a fondness for good literature.

The work of the first and second years is intended as a basis upon which the two years of professional training shall rest. In the Junior and Senior years the work is given with the following ends in view:

To cultivate the love of general literature for its own sake; to give the pupil-teachers the right attitude toward English teaching; to dignify and magnify the office of English in the common schools, and to show that teachers can bring life and interest to English speaking children in the study of their mother tongue.

### Spelling

All students are given an examination in spelling on the first Saturday of the Fall term. Those who show by such examination the ability to spell ninety out of one hundred familiar words in every day use, are excused from further work in spelling. Those who do not pass this examination are required to take spelling for one term, or longer if necessary.

### Mathematics

Work is offered in Arithmetic, Algebra and Plane Geometry.

It is the purpose of this course to give the students a thorough mastery of the principles of Arithmetic, Algebra and Geometry.

Speed, accuracy and thoroughness are insisted upon. The power of mental confidence is inculcated by the constant use of checks. Special emphasis is also laid on how to teach mathematics, how to make it more attractive to the average student. The history and development of the subject of Arithmetic are taken up. In short, the purpose of this course is to give a thorough grounding in the principles of Mathematics with the view of making the teacher-pupil a more efficient instructor in this subject.

### **History**

The object of this course is to acquaint the students with the leading facts of Ancient History, Mediæval and Modern European History, and to give them a thorough grounding in the essentials of American History and the History of North Carolina.

The foundation of modern civilization rests upon the civilizations of the past. The aim of this course, therefore, is to get so acquainted with Ancient and Mediæval History that the student can approach with intelligence Modern History, both European and American. One year is offered in Ancient, one year in Mediæval and Modern European History. Not only the acquisition of the leading facts of History is insisted upon but such acquisition of these facts as will enable the student to become an efficient teacher of the subject.

### **Civics**

The course in Civics is intended to give the essential forms of the government now found among civilized nations with especial emphasis upon the government of our own nation and state.

### **Latin**

The work in Latin designs to broaden, sharpen and strengthen the intellectual faculties, and to give power to express thought with clearness and precision. To this end

the aims of the course are to secure a thorough knowledge of inflections, as extensive vocabulary as possible, familiarity with the rules of syntax, accuracy in translating Latin into English and English into Latin, a knowledge of derivation and word formation.

Cæsar's Gallic War, Cicero's Orations and Letters, Ovid's Metamorphoses, and Vergil's Aeneid are read. Throughout the course attention is given to Roman life and such other subjects as will be especially helpful in understanding and appreciating the author read.

NOTE—If the student desires to take the entire course in Latin it will be necessary to spend an extra year in school.

### Science

It is the one purpose of our science courses to train for intelligent living and intelligent service.

This involves a thorough knowledge of the fundamental principles of our several subjects of study, a knowledge of the facts which make these principles clear, and a knowledge of the science facts necessary for daily life.

Inasmuch as the goal of instruction is not reached until the individual has acquired the power to use the knowledge he has gained, power to work independently of the teacher, power to think accurately and clearly, these features are stressed and opportunity is constantly offered to apply the knowledge gained to the practical and everyday affairs of life.

Our science courses lead up to, prepare for and culminate in the subjects most closely related to the lives of the people of North Carolina—

(a) Geography—A study of the earth in its relations to life, its control over life and the way life responds to the various geographic factors; and the way man adjusts himself to and utilizes the factors of his environment best to meet his needs.

(b) *Elementary Biology*—(1). A study of those commonsense, valuable, and interesting things about plants and animals that are most closely related to human life. (2) A study of the human mechanism to the end that it may receive more intelligent care and attention and result in healthier, happier and more efficient living.

(c) *Agriculture*—To assist us in solving the problem—"Who can raise the best plant or animal?" and bring to the problem and its solution, common sense, good judgment, and a knowledge of the principles which underlie efficient agriculture—the greatest and most important occupation of man—so as to dignify it and bring it up to the rightful place it should hold not only in the minds of those who engage in this occupation, but in the minds of all others.

(d) *Home Economics*—How to improve the conditions in and about our home; to discover those factors that make for a more sanitary and a more hygienic mode of living, and that influence the physical, mental, moral and æsthetic nature of man.

This involves the questions of sanitation, food and its proper preparation, home decoration and dress.

### **Pedagogy**

Pedagogy is an essential department of a Teachers' Training School. The instruction in this department deals with the fundamental principles of education; the relation of the different branches of knowledge to one another and to the mind, and the method by which the human powers may be trained, and the mind stored with knowledge. It deals with the theory and the practice of teaching.

The Department of Pedagogy in this school devotes some time to a study of the fundamental laws of mind that the students may utilize their knowledge of these mental activities in their own study. This includes within its scope a study of Child Development and How to Teach Children to Study.

The Teaching Process is emphasized with the aim of enabling the students to understand and make a practical application of the principles involved in good teaching and the methods employed to realize the goal in the process of education.

### **Primary Methods**

This course will cover the work of the first three grades and will consist of lectures, discussions and observations of work done with a class of young children. The aim of the course is to get a correct idea of the methods which have been most successful in teaching reading, language, number work, etc., in the lower grades.

### **School Management**

It is the purpose of this course to discuss the various problems confronting the teacher in the organization, the conduct, and the management of the school. It proposes in addition to the treatment of methods and their skillful use, to emphasize the practical and vital topics in school management in such manner that it may aid the teachers to fill that wider function of training pupils for the duties, responsibilities and obligations of life. It is made as practical as possible in order to meet the conditions and needs of the schools of to-day.

### **Drawing**

The courses in drawing are planned to give all students who wish to teach Primary and Grammar grades a practical knowledge of drawing.

The purpose is to train the mind, the eye and the hand to work together—to cultivate habits of thought and observation and to create an appreciation of the beautiful.

The courses are adapted to the needs of the student-teacher both as a learner of the principles of drawing and as a prospective teacher of the subject.

### **Writing**

A special course in writing is offered. The aim of the course is to give the fundamental principles which are needed in presenting this subject to public school pupils.

### **Music**

Three courses in music are offered.

#### **Public School Music**

The object of this course is to prepare teachers to conduct the singing in their schools, and to instruct them in the fundamental principles of music. Public school music as presented to-day recognizes the fact that its great value lies in singing with interest and expression. The foundation of musical knowledge is laid through the acquisition of a repertoire of beautiful songs. Attention is given to technique and to expression; the elements of music being studied through the medium of songs.

#### **Instrumental Music**

Instrumental instruction on the piano is offered. The object of this course is thoroughly to ground the student in the fundamental principles of instrumental music.

#### **Voice**

Special lessons in voice are offered. Here the emphasis is laid both on the side of technique and expressional interpretation.

---

NOTE.—If the student desires to take special lessons in Instrumental Music it will be necessary to spend an extra year in school.

**Expenses for the Year**

Board in the dormitories .....	\$90.00
Laundry .....	14.00
For the use of text-books .....	5.00
Light and heat .....	9.00
Medical and Hospital fees .....	5.00
Dormitory fee .....	2.00
	<hr/>
	\$125.00

*Literary tuition .....	\$45.00
Instrumental music .....	45.00
Voice .....	36.00

Payments will be due in advance as follows:

September 26 .....	\$41.67
January 3 .....	41.67
March 26 .....	41.66
	<hr/>
	\$125.00

---

**\*Note.**—There is no charge for tuition for those who agree to teach for two years. To all others there will be a charge of \$45.00 per year.

**Students Attending East Carolina Teachers Training School, September 13, 1910, to May 23, 1911**
